MARTINDALE'S CALCULATORS ON-LINE CENTER METEOROLOGY, CLIMATOLOGY, WEATHER ATMOSPHERIC CHEMISTRY & ATMOSPHERIC PHYSICS CENTER (Calculators, Applets, Spreadsheets, and where Applicable includes: Courses, Manuals, The Crista-Spas Project (all information needed is available directly from Crista Project website. Click on the link) Crista, Cryogenic Infrared Spectrometers and Telescopes for the Atmosphere, is a group of infrared instruments sensing the middle atmosphere (10 km to 100 km) from an Earth orbit. Spas is the acronym for Shuttle Pallet Satellite, the spacecraft carrying Crista. After watching this video, you will be able to explain what the scientific method is, how and why it is used in geography, and give some examples. Global warming is a multifaceted, complex issue. It involves both natural and human causes that can increase the amount of greenhouse gases. This lesson looks at some of the facts about global ... - Atmospheric Phenomena : Readings From Scientific American
