Solid Waste Management Program Forum - is a stakeholder group open to representatives from industry, consultants, environmental groups and regulatory agencies. The mission of the forum is to continuously look for and evaluate issues related to solid waste management. With such a tool, every community can tailor its own unique system to manage various components of the waste streams in a flexible manner (Najm et al., 2002). Yet how to smooth out the barriers toward achieving appropriate systems synthesis and integration of the five systems engineering models and the nine system assessment tools to aid in solid waste management practices in European countries ...IS PRIVATIZATION AN OPTION FOR A BETTER MUNICIPAL SOLID WASTE MANAGEMENT OF ADDIS ABABA? By Tekahun Basha (2007) 1 ABSTRACT In an attempt to analyze the baffled Municipal Waste Management of Addis Ababa and its multifaceted problems and to propose an improved way of waste management, this paper explores the significance of the introduction of formal privatization as a better option.
